Fishing Rights For Americans

www.LetUsFish.org Petition

We are a grass roots organization started by recreational fisherman, for recreational fisherman. We need your support by signing our online petition, that give's us a voice on issues that affect our rights to fish.
Help us OPEN the EEZ to Rockfish, and put a stop to the over regulation and unfair practices that has become totally out of control. Science supports the opening of the EEZ, why doesn't our government. We will ask those questions, and get real answers but we need a collective voice, which comes from your SUPPORT. Log on to LetUsFish.org for more information and JOIN US today. - *Colin R. Campbell - Let Us Fish*
